International symposium on restoration and conservation of shads

October 14th and 15th, 2015

Auditorium, Espace François Mitterrand, 23 boulevard Henri Sicard

24100 Bergerac (Dordogne, France)

The international symposium on study, restoration and management of shads held on October the 14th and 15th 2015, in Bergerac (France). More than a hundred people came to attend the feedback from the LIFE+ project for restoration of the Allis shad on the Rhine (2011-2015), a report on current knowledge about this fascinating species, and also attend the presentation of other research works conducted in the whole world.

Agenda

Umwelt und Verbraucherschutz
Nordrhein-Westfalen

Hessisches Ministerium für
Umwelt, Energie, Landwirtschaft
und Verbraucherschutz

Bezirksregierung
Düsseldorf

Agenda

Wednesday, October 14th, 2015

Reception and introduction

9h00 Reception

9h30 Introductory speech

Frédéric DELMARES

Vice-Président du Conseil Départemental de la Dordogne, Vice-Président de la Communauté d'Agglomération de Bergerac, Administrateur d'EPIDOR et représentant de Germinal PEIRO, président d'EPIDOR.

Detlev INGENDAHL

Ministry of environment of Rhineland North Westphalia.

10h15

Shads in the world – State of the Allis shad and conservation issues Miran APRAHAMIAN (ex Environment Agency, UK)

Session 1 : Results of the Life+ Allis shad project

(Chairman : Detlev INGENDAHL)

10h45

General presentation of the LIFE+ project

Andreas SCHARBERT (Rhenish Fisheries Federation, Germany)

11h Break

Part 1 : Report of the stocking operation in the Rhine

11h30

Larvae production on the Garonne–Dordogne bassin and releasing in the Rhine David CLAVE (MIGADO, France)

11h45

Survey in the Rhine watershed

Andreas SCHARBERT (Rhenish Fisheries Federation, Germany)

12h00

Ex situ stock in Aquarium La Rochelle – Rearing and sexual maturation results P. JATTEAU, S. DUFOUR, P. MORINIERE, S. BALOCHE, F. GONNET (IRSTEA and MNHN, France)

Part 2 : Studies on the Gironde-Garonne-Dordogne Allis shad population

12h10

Young of the year survey on Garonne and Dordogne

Aline CHAUMEL (SMEAG, France)

12h20

Behavior of shad migrating upstream at the obstacles of Golfech, Bergerac and Tuilières on the Garonne and Dordogne

Olivier GUERRI, Pascal VERDEYROUX (EPIDOR, France)

12h30 Questions

13h00 Lunch on site

Session 2 : State of the science

(Chairman : Miran APRAHAMIAN)

Subject 1 : Migration issues

14h30

State of the knowledge on fish ladder for American shad in the USA François GROUX and Jean THERRIEN (WSP, Canada), Matthieu CHANSEAU and Dominique COURRET (Onema, France) and Stéphane TETARD (EDF, France)

14h50

Migration barriers : the french approach and the case of the Dordogne river Dominique COURRET (Pôle Ecohydraulique de l'ONEMA, France) et Matthieu CHANSEAU (ONEMA, France)

15h10

Migration of the Allis shad in estuary and impact of the Estuarine Turbidity Maximum. Acoustic telemetry in the Loire estuary during 2011 and 2012.

Stéphane TETARD (MNHN et EDF, France), Eric FEUNTEUN (MNHN), Elise BULTEL (MNHN), Romain GADAIS (MNHN et INRA), Marie-Laure BEGOUT (IFREMER), Thomas TRANCART (MNHN) et Emilien LASNE (MNHN, INRA)

Subject 2 : Habitats

15h30

Features and functionality of spawning habitats

Isabelle CAUT (MIGADO, France), Matthieu CHANSEAU (Onema, France) and Dominique COURRET (Pôle Ecohydraulique of the Onema, France)

15h50

Oxygen and temperature effects on development of eggs, larvae and youngs of shad

Philippe JATTEAU and Patrick LAMBERT (IRSTEA, France)

16h05 Questions

16h30 Break

Subject 3 : News tools for population management

17h00

Wandering and philopatry of the Allis shad, crossed contributions of genetics and otolith microchemistry Françoise DAVERAT (IRSTEA, France)

17h15

Genetics tools : state of the science and prospect

Stephen SABATINO, Paulo ALEXANDRINO (University of Porto, Portugal)

17h30 Questions

18h00 End

20h00 Conference-dinner « Fishes of the Dordogne river – Historical approach of fisheries and consumption »

Yan LABORIE (Bergerac city)

Orangerie room

Thursday, October 15th, 2015

9h00 Reception

Session 3 : Other examples of shads management in the world

(Chairman : Jean-Michel CARDON, ONEMA)

9h30

The restoration plan of the American shad of the Susquehanna river : assessment and prospect
Chris FRESE (Kleinschmidt Group, USA)

10h00

The restoration plan project on the Severn river
Charles CRUNDWELL (Environment Agency, UK)

10h20

The shads in Portugal
Pedro RAPOSO DE ALMEIDA (University of Evora, Portugal)

10h45 Break

11h15

The Twaite shad in Europe : situation and conservation issues
Miran APRAHAMIAN (ex Environment Agency, UK)

11h30 Questions

12h15 Conclusions

Hervé BLUHM, Directeur Inter-régional ONEMA

Benoît WIBAUX, Délégué adjoint Agence de l'Eau Adour-Garonne

Detlev INGENDAHL, *Ministry of environment of Rhineland North Westphalia.*

Frédéric DELMARES, Vice-Président du Conseil Départemental de la Dordogne, Vice-Président de la Communauté d'Agglomération de Bergerac, Administrateur d'EPIDOR et représentant de Germinal PEIRO, président d'EPIDOR.

12h30 End

EXCURSIONS

14h00 - Discover of the Dordogne and shad spawning grounds in Gabarre

16h00 - Visit of the EDF dam of Tuilières

18h00 End of the symposium
